CERTIFICATE OF TRANSMISSION 37 C.F.R. 1.8	
I hereby certify that this correspondence is being facsimile to the USPTO on the date below:	
7/8/05 Date	<i>Debi Labay</i> Signature

Attached please find the following documents for the above referenced patent application:

- 1) Request for Certificate of Correction;
- 2) Certificate of Correction; and
- 3) Page one of the U.S. Patent No. 6,908,598 B2.

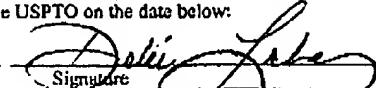

CONFIDENTIALITY NOTE

The document accompanying this facsimile transmission contains information from the law firm of Streets & Steele which is confidential or privileged. The information is intended to be for the use of the individual or entity named on this transmission sheet. If you are not the intended recipient, be aware that any disclosure, copying, distribution or use of the contents of this faxed information is prohibited. If you have received this facsimile in error, please notify us by telephone immediately so that we can arrange for the retrieval of the original documents at no cost to you.

Sir:

REQUEST FOR CERTIFICATE OF CORRECTION UNDER 37 C.F.R. § 1.322

Applicant requests that the attached Certificate of Correction be accepted under 37 C.F.R. § 1.322. The Certificate of Correction includes corrections of mistakes in the title due to error by the Patent Office. This request is made after the issuance of US Patent No. 6,908,598 B2 granted on June 21, 2005. (see attached)

It is believed that no fees are due. In the event an additional fee is required in connection with the enclosed Certificate of Correction, the Commissioner of Patents and Trademarks is authorized to charge our Deposit Account No. 50-0714-LYNN/0119 for the necessary amount.

Respectfully submitted,

Frank J. Campigotto
Attorney for Applicant

This collection of information is required by 37 CFR 1.322, 1.323, and 1.324. The information is required to obtain or retain a benefit by the public which is to file (and by the USPTO to process) an application. Confidentiality is governed by 35 U.S.C. 122 and 37 CFR 1.14. This collection is estimated to take 1.0 hour to complete, including gathering, preparing, and submitting the completed application form to the USPTO. Time will vary depending upon the individual case. Any comments on the amount of time you require to complete this form and/or suggestions for reducing this burden, should be sent to the Chief Information Officer, U.S. Patent and Trademark Office, U.S. Department of Commerce, P.O. Box 1450, Alexandria, VA 22313-1450. DO NOT SEND FEES OR COMPLETED FORMS TO THIS ADDRESS. SEND TO: Attention Certificate of Corrections Branch, Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450.

If you need assistance in completing the form, call 1-800-PTO-9199 and select option 2.

(57) **ABSTRACT**

Sodium nonatitanate compositions, a method using the composition for recovery of ⁸²Sr from irradiated targets, and a method using the composition for generating ⁸²Rb. The sodium nonatitanate materials of the invention are highly selective at separating strontium from solutions derived from the dissolution of irradiated target materials, thus reducing target processing times. The compositions also have a very low affinity for rubidium, making it an ideal material for use as a ⁸²Rb generator. Sodium nonatitanate materials of this type both improve the recovery of ⁸²Sr and provide a safer, more effective ⁸²Rb generator system.
